LINQ™

Cutting-edge inventory management software

In the competitive world of automotive repair and refinishing, body shops need to stay ahead of the curve. PPG LINQ™ Inventory is an industry-leading body shop inventory management software and mobile solution that offers comprehensive, end-to-end tools for collision repair businesses.

DISCOVER PPG INVENTORY

Built on cloud technology, this robust software solution helps body shops optimize their inventory processes, increase efficiency, and ultimately save time and money. With its integration with PAINTMANAGER® XI software and PPG MOONWALK® automated mixing machine, this system synchronizes with multiple devices effortlessly so you and anyone on your team can gain a real-time look at inventory status, at any given moment. You can even connect your distributor to the system, ensuring that your stock is replenished on an agreed-upon schedule.

PPG LINQ INVENTORY APP - CHECK STOCK AND ORDER FROM YOUR SMARTPHONE

The PPG LINQ Inventory app is a groundbreaking mobile solution developed by PPG, designed to make ordering and managing stock in the refinish sector simpler and faster than ever.

With the PPG LINQ Inventory app, users can quickly scan products that are running low and send orders in just a few seconds, avoiding errors and saving time. The app can also be used by PPG distributors to take orders when visiting a body shop.

FEATURES

Comprehensive Inventory Management

Easily track your inventory levels, reorder stock, manage vendors, and much more.

Intelligent Reordering System

Based on automatic reorder points, this system helps body shops maintain optimal stock levels, improving inventory efficiency.

Real-Time Data Analysis

In-depth analytics and reporting allow you to make data-driven decisions for improved inventory optimization.

Cloud-Based

Access inventory data anytime, anywhere, and from any device with an internet connection.

Integrated with PaintManager XI

Fully integrated with *PaintManager XI* software, providing a seamless experience for managing paint formulations and inventory control.

PPG MoonWalk Compatibility

Also integrated with the PPG MoonWalk automated mixing machine, enabling body shops to accurately measure and mix paint, streamline the paint process and reduce waste.

BENEFITS

Inventory Optimization

Optimize your inventory levels, reducing waste and ensuring you always have the right products in stock.

Enhanced Efficiency

Streamline your body shop processes and workflows with a powerful, integrated software solution that saves time and reduces errors.

Cost Savings

Effectively manage your inventory and reduce waste, helping you to save money on materials and labor.

Competitive Edge

Adopting state-of-the-art body shop software allows you to stay ahead of the competition and provide top-notch service to your customers.

PPG is more than paint. Our revolutionary, industry-leading connectivity platform has been exclusively designed to completely transform customer experience, partner relationships and internal body shop operations.
