LINQ™

Find the right products for the job, rain or shine

PPG *MagicMix* is the latest addition to our PPG LINQ™ Color software. Working seamlessly with the PPG MagicBox™ mixing room solution and wireless PPG MagicSensor temperature and humidity sensing devices, PPG *MagicMix* will display the most effective products and its combinations of hardener and thinner/reducer for current environmental conditions and type of repair.

PPG MagicMix
Smart. Simple. Magical.
The right mix, every time.

FEATURES

- Temperature and humidity within the application area are shown in real time
- Suitable for undercoats, color and clearcoats
- Works for all sizes of repair
- No additional computer hardware required
- Integrated with your existing PPG LINQ Color setup and preferences
- Compatible with the tools in the PPG LINQ digital ecosystem
- Quick, easy and intuitive to use
- Works together with our PPG MagicBox and PPG MagicSensor devices, which are certified and safe to operate in the bodyshop environment

BENEFITS

Increased productivity

Painters using PPG *MagicMix* software no longer need to spend extra time choosing the most appropriate products.

Fewer reworks

Painters can access the most appropriate product information in just a few clicks. This helps to ensure 'right the first time' results and significantly reduces the need for rework.

Reduce corrections and polishing time

Using PPG *MagicMix* software can reduce the time required for correcting defects and polishing.

Improved painter experience

Painters of all skill levels can be confident in using the right products for the job, even in critical conditions. This can help to reduce stress and boost motivation and performance.

Increased car owner satisfaction

Achieve a professional, long-lasting finish and boost car owner loyalty. PPG *MagicMix* will help to increase satisfaction and encourage customers to keep returning to your bodyshop.

PPG is more than paint. Our revolutionary, industry-leading connectivity platform has been exclusively designed to completely transform customer experience, partner relationships and internal body shop operations.
